Notes:

1. There are a few food items stored on the floor in the walk in cooler due to a recent delivery. Ensure all food items are properly stored 6 inches from the floor.
2. The current date marking system is visually unclear and provides room for error. It is recommended that a new date marking system be implemented.
3. There is caulk failing at the exhaust hood above the cooking equipment. This should be properly repaired to code using approved materials.
